Please note remarks on other side.

5 November 1962 :

As recently discussed with [] all contact with the [] on lens design will be paid for under an existing Air Force Office of Scientific Research contract wherein the AFOSR representative has agreed to allow contact with the [] under their existing contract.

[] was advised that [] both hold CIA "Secret" clearances; that both men can be advised that while their "time" will be charged to the AFOSR contract, the work they do for [] will be for CIA and should be treated as classified due to the fact it is being done for CIA; that they should contact [] on the TP&DS sterile telephone and should use the [] post office box for a mail address, double wrapping all items with the second envelope addressed to []

It was further agreed that due to the above situation, the TP&DS request for pre-contract contact with the AFOSR submitted with this request would be cancelled.
